

# Kim Jalbert

## *Esthetician*

Kim began her career in esthetics 20 years ago. Her initial interest was to work with acne. Having acne herself, Kim was looking to work in the medical field to help others with their acne. She quickly learned, however, that she enjoyed the spa atmosphere and helping clients with their skin goals in a more pampering, one-on-one environment.

Diving deeper into skincare, Kim continued to grow her services to focus on anti-aging, targeting wrinkles and scarring, pigmentation from sun damage and making clients feel beautiful and relaxed.

Kim provides waxing services as well as tinting for brows and lashes. She is also certified in microdermabrasion and dermaplaning.
